About the Conference

The 23rd RAAD'14 International Conference on Robotics in Alpe-Adria-Danube Region will be held in the Congress Centre of the Slovak Academy of Sciences in Smolenice, Slovakia on September 3-5, 2014. The Conference will bring together researchers in robotics from the Alpe-Adria-Danube region countries in a collegial and stimulating environment. According to its tradition, RAAD 2014 will cover all major areas of research and applications in robotics in the participating countries.

Conference Topics

Papers are solicited on topics related to robots within theory, design, practice and applications, including but not limited to:

- industrial robotics and advanced service robots
- mobile and swarm robotic systems
- information - communications - control issues (modeling, simulation)
- sensors, perception and sensor based robot control
- human-robot interfaces, components and tools
- novel design and applications of robotic systems
- small and micro/nano - scale robots
- medical robots and bionic prostheses
- agricultural robots
- education in robotics
- cognitive robots and trends in robotic research
